

Dear Sir or Madam,

I am the homeowner of 7 Heriage Dr. in Reading. I purchased the home in September of 2014 as it is currently configured, and I have not performed any construction or additions since the purchase was completed. The construction of a porch room was completed by the previous owners without my knowledge or consent. Any construction materials or debris remaining from this project have been removed and disposed of appropriately. Pictures of the area have been provided with this letter as proof that the construction debris have been removed and the area is clear.

Additionally, I pledge that no construction debris or materials related to the proposed addition project will be stored or permitted on the side near the conservation land. A dumpster will be kept on the opposite side of the property with for disposal purposes and all materials will be similar kept on the driveway.

Thank you for your time and attention to this matter.

Sincerely,

S. Jordan Kerns
