***48 PASTURE ROAD***  
***READING, MASS.***

Project Summary:

The owner is seeking to demolish an existing deck and construct an addition in the same general area with an attached platform/deck with a set of steps down to an existing paver patio. The wetlands were flagged by Norse Environmental Services in April of 2020. The proposed work is all within 100 feet of the wetland area but outside of the 35 foot buffer zone. No trees are to be cut or removed as part of this project. A construction access route and soil stockpile area are shown at the southwesterly portion of the site. Erosion control, in the form of a 12 inch diameter mulch soxx, is shown on the plan along the limit of work line.

The owner is providing drainage mitigation for this project in the form of a 2'x2' crushed stone drip trench along the drip edge of the proposed addition. Additionally, the area under the 5'x13' platform/deck and steps to the existing patio will be crushed stone. There are no proposed grading changes associated with this project. The closest point from the platform/deck to the wetlands is approximately 46 feet.
